KS2 Maths Worksheet 16e

Choose and use appropriate operations to solve word problems, explaining methods and reasoning.

Find the answers to the following.

hat = £11.58	sweater = £23.60
tie = £9.50	belt = £7.88
hamburger = £2.16	pair of socks = £4.01
Pen = £0.87	hot dog = £1.00

1. _____ If Allan buys a belt, a hat, and a sweater, and if he had £45.00, how much money will he have left?

2. _____ What is the total cost of five ties, four hamburgers, and four belts?

3. _____ Marin wants to buy two sweaters, five hats, and four Pens. How much will she have to pay?

4. _____ What is the total cost of a pair of socks, a Pen, a hamburger, and a belt?

5. _____ Allan purchases two sweaters and five belts. If he had £90.00, how much money will he have left?

6. _____ If Steven wanted to buy a hat and a pair of socks, how much would he have to pay?

7. _____ If Jake buys a belt and a hat, and if he had £20.00, how much money will he have left?

8. _____ What is the total cost of five hats, two hamburgers, and three pairs of socks?
