KS2 Maths Worksheet 19b

Solve a given problem by organising and interpreting numerical data in simple lists, tables and graphs.

1) Write the following numbers in the correct sections of the Venn diagram.

18, 126, 27, 6, 36, 12, 54, 4

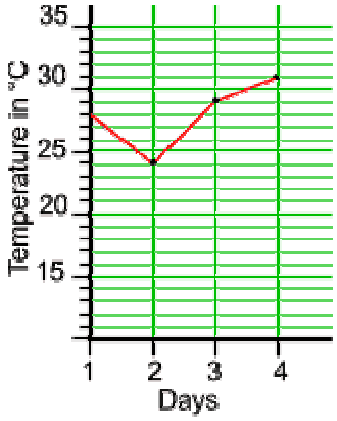

2) Harvey has been recording the highest daily temperature for 4 days last summer. He chose to collect the data in a line graph. Answer the following questions using the graph on the right.

A) What was the highest temperature that Harvey recorded on day 3? 29°

B) By how many degrees did the temperature rise from day 2 to day 4? 7°

C) What is the average temperature over these 4 days? 28°

3) The Carroll diagram shows how some numbers between 3 and 31 have been sorted. Add the numbers 6 and 27.

	odd	not odd
Less than 15	3	6 14
Not less than 15	27 31	18

4) The local school has been organising a fair where snacks are sold to students. Three stands are selling pieces of cake. Answer the following questions.

A) How many pieces of cake did Stand 2 sell between 10 and 11 a.m.? 27

B) How many pieces of cake did Stand 3 sell between 10 and 12 a.m.? 48

C) Which stand sold the most cakes? Stand 3

	9-10am	10-11 am	11-12 am
Stand 1	8	22	24
Stand 2	13	27	18
Stand 3	11	25	23
