Name: _____ Date: _____

KS2 Maths Worksheet 19d

Solve a given problem by organising and interpreting numerical data in simple lists, tables and graphs.

1) Write the following numbers in the correct sections of the Venn diagram.

90, 3, 78, 24, 9, 12, 6, 42

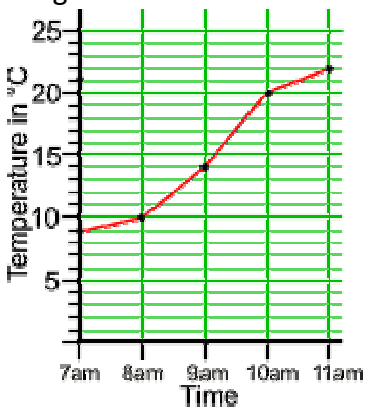

2) Mia has been recording the temperature every hour between 7 and 11 a.m. one morning. She has collected her data in a line graph. Answer the following questions using the graph on the right.

A) What temperature was it at 10 a.m.? 20°

B) How much did the temperature rise from 7 a.m. to 11 a.m.? 13°

C) What was the average temperature? 15°

3) The Carroll diagram shows how some numbers have been sorted.
Add the numbers 34 and 63.

	odd	Not odd
Multiple of 9	63 45	18
Not multiple of 9	29	34 14

4) Mr. Seymour has a local convenient store. He has a list that shows him the cost of each product and how many he has got in stock. Answer the following questions.

A) How many packets of coffee has Mr. Seymour got in stock? 7

B) What is the total value of all the butters? 7.20

C) If one wants to buy one of each item on the price list, how much would one spend? £6.60

	Quantity	Unit price
Sugar	11	£0.90
Coffee	7	£3.70
Butter	6	£1.20
Milk	13	£0.80
